FORTY-SIXTH YEAR NO. 16.

CEDARVILLE, OHIO, FRIDAY, APRIL 6, 1923

A NEWSPAPER DEVOTED TO LOCAL AND GENERAL NEWS AND THE INTERESTS OF CEDARVILLE AND VICINITY.

PRICE, \$1.50 A YEAR

Must Be Dollars Not Students

At the meeting of the North Central Association of Colleges in Columbus last week we understood that one of the acts of the meeting was to raise the requirements for colleges to become members or remain as members in good standing was to increase the endowment requirements.

This of course was done to hold down smaller institutions. The Association is in the hands of men connected with large institutions and it is no trouble to put over most any kind of a regulation that would be the means of crushing the smaller institution.

Under the new requirement for recognition a college must after this year have an endowment of \$300,000. By 1925 the amount is to be \$400,000. In 1926 it is to be \$500,000.

From the action of this organization it looks as if there was to be no hope for the small institution that at this time is probably doing a more important work than the big university.

Instead of making it easier for the boy or girl to receive a college education this organization would make it harder. The smaller college is educating the boys and girls from families of moderate means, the boys and girls that may in the future have as much or more to do with carrying the responsibilities of the nation than the graduate from the university.

The North Central Association is the most powerful in politics and in the control of both state and national legislation. The time is here for the state legislature to take a hand to help preserve the small college.

The legislature at this time is providing several million for the O. S. U., all to be paid by the tax payers of Ohio and but few of them can well afford to send a son or daughter to that institution after helping to pay for its operation. We notice that President W. O. Thompson gets a salary of \$10,000 a year with house rent, provisions from the state garden, hot house delicacies and eggs and chickens from the poultry farm. The Ohio legislature needs to have a leader that will resist the influence of the big universities and the small college.

AUDIT SHOWS GOOD REPORT FOR LIVE STOCK MANAGER

An audit of the books of the Greene County Livestock Company for the year ending March first shows that the margin of operating expense was only 1.07 per cent of all live stock sales. 98.93 per cent of the total sales going direct to shippers.

The total sales for the year amounted to \$437,819.15 of which the shippers received \$433,094.23, leaving a gross operating expense of \$4,724.92. The net worth of the company in March 1, was \$1381.85 which includes the bank balance or insurance reserve office equipment and money paid to ward the establishment of the co-operative Commission houses in the terminal markets.

During the year 152 straight floors and 180 mixed floors or a total of 332 floors of livestock were shipped, a total of 4,681,455 pounds.

961 shippers used the organization and sent to market 22,507 hogs, 44 cattle, 318 calves and 2090 sheep.

The books show an increase in business over 1921 of approximately 40 per cent.

Manager W. H. Smith is to be congratulated on the excellent way in which the books have been kept and on the increase in business.

SHERIFFS HAVE RICH PICKING IN THE BIG COUNTIES

Reports of salaries paid sheriffs in the big counties shows that these officials have something very rich. In Cuyahoga county the sheriff with his salary and fees for boarding prisoners reached \$30,000 last year. Franklin and Hamilton counties each paid the sheriffs about \$28,000 while the sheriffs in other counties with fair sized cities were paid in the same ratio. The sheriffs in rural counties were not so lucky. The cities furnish the most prisoners. In the cities most of the liquor law violators are sent to the county jail and these cases have filled these institutions.

CLOVER HAD A HARD JOIT BY THE RECENT FREEZE

Most farmers are under the opinion that the young clover has had a hard joit when the recent freeze hit it while in a tender state. Some will sow over while those who did not sow until just before the freeze will no doubt find it all right. Sowing over makes it very expensive at the price of seed. The warm rains this week have done much to liven up the wheat that was not looking any too good, due to the open winter.

TAG PRICES DROP

BRYAN FARM NOW UP TO GOVERNOR DONAHAY

The legislature has passed a bill to accept the John Bryan farm of near Yellow Springs known as Riverside farm which was willed to the state but turned down by Govs. Cox and Davis due to the clause in the will that no religious services were to be held on the farm.

This section of the will caused a storm of protest from church interests of all denominations. The matter is now up to Governor Donahay who has ten days to sign the bill or veto it or let it become a law by refusing to sign it.

Tuesday L. F. Cleveland and Postmaster Rice of Xenia called on the Governor to discuss the merits of the bill and urge the acceptance of the farm. It is said that Donahay did not indicate what he would do, although the two felt that he would permit the state to take the farm over.

AUTO RAMMED INTO TREE ACROSS ROAD IN THE DARK

William Harrison, who resides on the Col. Stevenson farm near Wilberforce had quite an experience on Tuesday night when going down the steep hill back of Wilberforce. A large tree had fallen across the road at the turn and before he could get the auto slowed down he rammed into the tree with great force that did much damage to the auto. It is said that the radiator was driven up over the motor to the windshield. Mr. Harrison did not suffer personal injury but the auto will need many repairs. The road was closed for the night. A tow truck came and there is a deep ravine on either side of the road but the impact as is fastened itself in the tree.

MAIL SERVICE WILL NOT BE UP TO STANDARD FOR TIME

When Congress passed the last appropriation bill there was an oversight and no provision made for paying the sub-posters and extra men needed in handling the mail. As a result all the city offices are now crowded with accumulating mail and the situation is growing worse daily.

THE COME-BACK YEAR

This year, 1923, is the "come-back year", and those who will substitute industry for indifference, service for selfishness, intelligent thrift for individual extravagance, will win.

The year 1923 is well under way. Already men of vision and purpose have formulated big plans. Watch the keen eyes on the successful men, and you will find they are all figuring on big business. Those men have vision and purpose. In the past, they won on vision and purpose, and they will win again on account of their courage and common sense.

We are on the threshold of sound business expansion. There will be exceptions, of course, and if you fail, you will be one of the exceptions. But before you reap the harvest of this coming season of success, you must buckle down to do your level best each day.

Many will build substantial success in the year 1923, and the doubt is not whether they will, but of which sums up like this: Success goes to the men of vision and purpose, and failure is found where men think failure, talk failure and act like failures. Anybody can find weak spots in any year in the history of our nation, and still we have continued every year to go ahead. In the year 1923 we are going to go ahead while some of the pessimists will go behind. Vision and purpose, with hard work and sticking everlastingly at it will turn the trick.

WHAT THE REWARD IS

People get out of country life about what they put into it. The fact that the people of a country town are to a considerable extent thrown on their own resources, tends to make them more original and resourceful and interesting. Those who find fault with rural life may have done nothing themselves to make it worth while.

But those who have enterprise and are willing to organize social and club and athletic activities, gain many more rewards than they ever expected. In addition to the direct objects of such enterprises, they meet bright people and form helpful friendships. They learn that there are a lot of clever folks among their neighbors who are worth knowing more intimately.

FABRIC BILL PASSES

"The truth in fabrics bill" has passed the legislature and is now up to the governor for his signature. It is one of the bills backed by the Federal Bureau and endorsed by reliable merchants. HONEY PHILOSOPHY For 1923

HERE you are reading this new paper again. You haven't seen it for a week and it feels like an old friend who just dropped in on the house. Wonder why you read it? Perhaps you like the simple way it tells the news of the old home town. Perhaps you like the editorials. Maybe it's because you can do all your shopping safely through the advertisements. Or the paper may have been helpful—a little informative. Anyhow, whatever it is that moves you to read, is summed up in this: It brings you either pleasure or profit—perhaps both. So when you have finished reading it why not pass it along to a friend. Scatter your roses while you may, for what is good belongs to all humanity, and every kindly act repays.

Poem by UNCLE JOHN

I know you remember the childhood hour, when April called from her bluegrass dell,—I know you haven't forgot the shower that gave no warnin' as it fell. . . . And I'm sure you recall the childish glee that suddenly changed to keen regret when Daddy called out, to you and me, "Come in—you children—out of the wet!"

SHELTER And—we obeyed, as we knewed we must,—but we whimpered a lot, as children do,—we held no dread of the April gust, that pelted right down, from skies so blue. . . . For children love the patterin' rain, that lays the dust, an' cools the sweat,—You have to remind 'em, time and again, afore they'll come in, out of the wet!

"Twas ever thus" of the human kind, when venturesome sports dared the rain,—our appetites has allers been blind, till they fetched us down, on the bed of pain. . . . So, I hark back to Daddy's command, which impressed me, so's I can't forget,—and I can't help callin' the heedless band,—"Come in—you children—out of the wet!"

Attention Ford Owners!

Ford parts, like almost everything else worth while, are counterfeited. Imitation parts are manufactured to SELL at the highest possible rate of profit and the grades of steel used are consequently not the same high quality, specially heat-treated alloy steels specified in Ford formulas for the manufacture of GENUINE FORD PARTS.

Don't be misled—Insist upon GENUINE FORD PARTS made by the Ford Motor Company. By so doing you will get from 35 to 100 per cent more wear from them, and you will pay the lowest possible cost—the same everywhere.

Remodeling Sale

Fifteen Days

Started April 2

Fifteen Days

OUR CONSTANTLY GROWING STOCK makes us realize that our means of displaying our goods is not sufficiently large, and we are starting to remodel our store front on April 2nd. We feel that the people of this trading community are entitled to see in our windows a generous display of the class of merchandise of which we handle, not just an insignificant sample or so. This does not do our stock justice, and the remodeling will greatly enlarge our window space, making two large windows instead of one small one. During this big event we will try to make new friends and acquaintances, as well as to keep our old ones, through special prices—in other words, a big remodeling sale, with the hope of bringing all who live in this community to realize that this store is here for service, courteous treatment and real merchandise prices.
